# RESPA▼ADVISOR®✚

PRESSURE + CO₂ MONITORING SYSTEM

## Download Data with Smartphone App
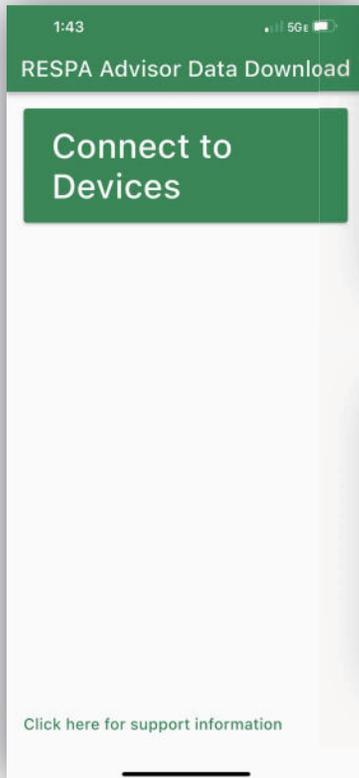

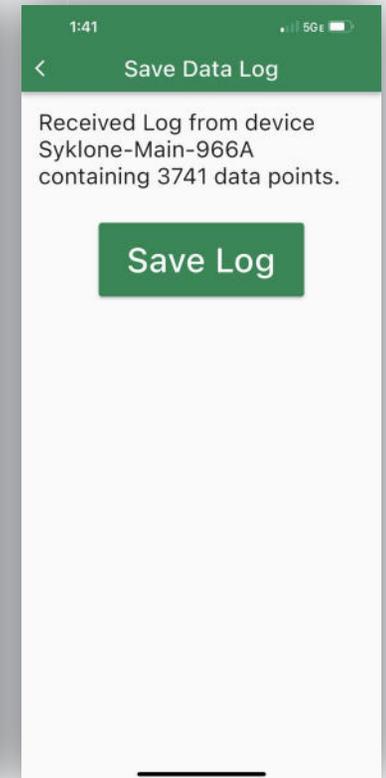

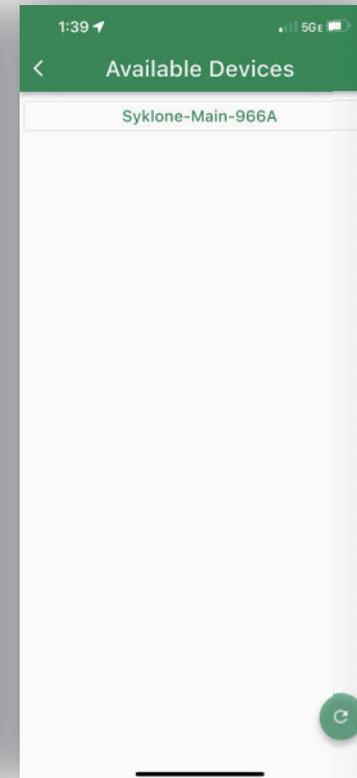

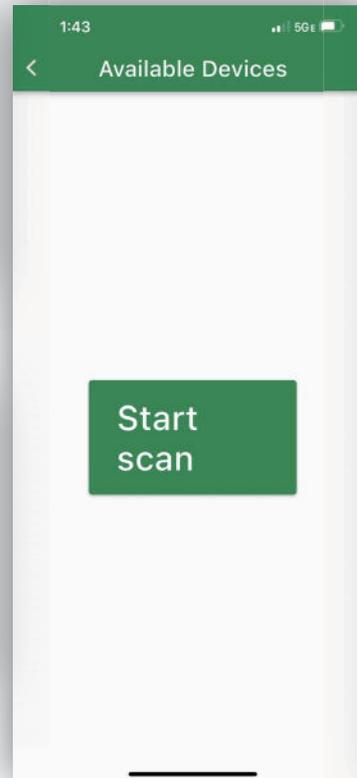

The RESPA Advisor smartphone app is available in the App Stores for iOS and Android. To download monitor data logs, you will need to have the app installed and have access to the monitor. **You will also need your Files app installed (iOS)**.

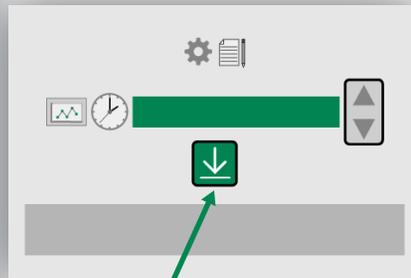

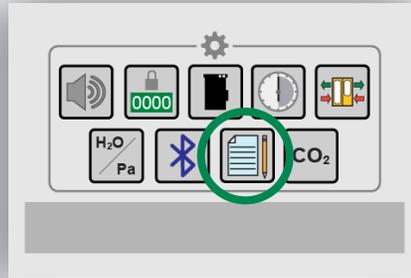

*Click download button. Unit can now be discovered via Bluetooth.*

**1**
Open the RESPA Advisor app on your phone and click **Connect to Devices**.

**2**
On the monitor, enter settings with passcode, then select the data logging icon. Click the **download button**.

*NOTE: Default passcode is 56538 but your organization may have changed that.*
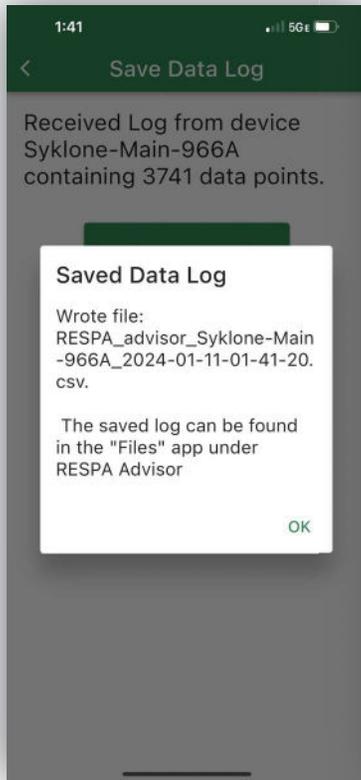

**3**
On the phone app, click **Start Scan**.

*NOTE: Android users click PAIR & CONNECT*

**4**
Select the listed monitor.

**5**
Click **Save Log**. A small log will take a few seconds. A large log may take a few minutes.

*NOTE: Android users may need to **allow** RESPA Advisor to access photos, media, and files on your device if this is the first time.*
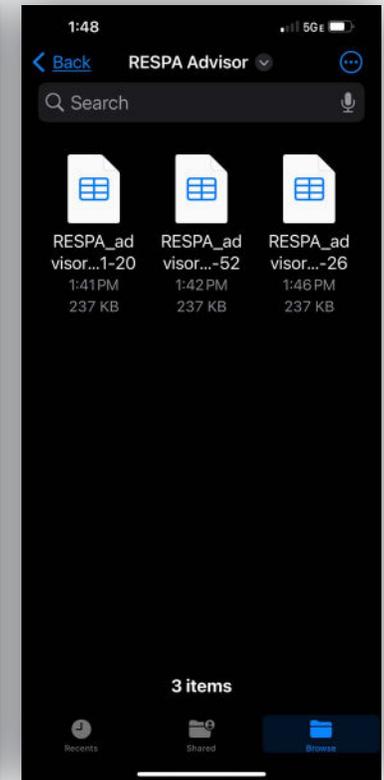

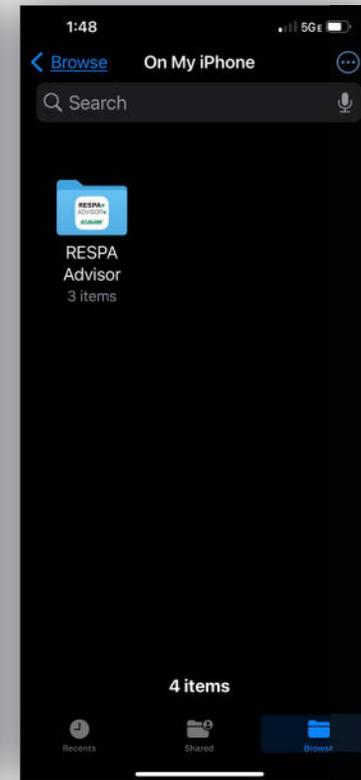

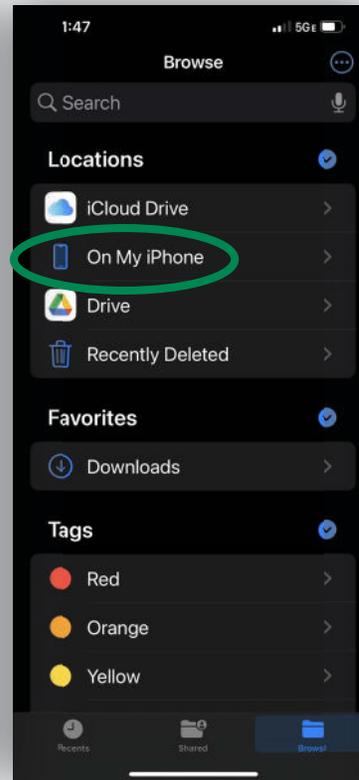

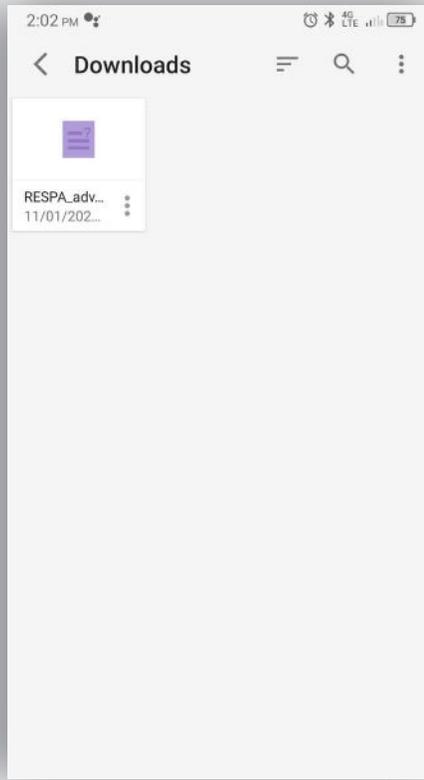

**6**
When complete, file name and location will be displayed.

**7 (Android)**
When complete, log file will be available in your Files under Downloads.

**7 (iOS)**
Navigate to the Files app on your phone. Select On My Phone.

**8 (iOS)**
Navigate to the RESPA Advisor folder.

**9 (iOS)**
Log files are displayed. You can send them by sharing via Mail.
